*All assessments for practice will be available for download on our class website under the **E-Learning** tab or can be emailed to you directly upon request. (Assessments are OPTIONAL, but great for practice!)

*We are skipping Chapter 15 on Calendar and Time. We practiced those skills every day while in school, and I felt that getting in chapter 16 and some of chapter 17 was more essential.

*After May 22 until the end of the “school year”, please work through any make up work you may have missed or self-pace through the suggested lessons in the math workbook. I will no longer be able to give direct lessons, but will still be available to answer any questions! Suggested lessons that I feel are most important to do are: **Ch. 17 Lesson 3 and 4**, and any of the lessons from **Chapter 19 on Money**.
